TIANJIN KONBEST TECHNOLOGY CO., LTD

Welcome to KONBEST

Focus on Sports Recovery Since 2009

KONBEST from China is one of the world’s leading sports recovery specialists consistently developing innovative recovery therapy products since 2009. We have pushed ourselves to meet the highest standards in terms of quality, value and performance and offer one stop solution, helping those professional top athletes, clubs, coaches and physiotherapists throughout the world. We have researched and developed range of physiotherapy products, devices such as **compression recovery boots, cryotherapy system, massage gun, pulsed electirc magnetic field (PEMF) device and other innovative physiotherapy wellness products** for rapid recovery post-workout.

Through continuous development and cooperation with those professional sports teams, clubs, our mission is to produce technologically advanced physical devices that tackle those problems such as soreness pain, inflammation suffered after workouts and help them get rapid recovery and effectively relieve muscle tension.

Why Choose us?

- **Professional Experience:** 17+ Years’ Experience in sports recovery field
- **Professional R&D Team:** More than 5 New Products Launched per year
- **OEM& ODM Service:** Manufacturing or Molding Customized
- **Qualifications:** ISO13485, BSCI, CE, ROHS, FDA, 10+ Patents
- **Production Capability:** Yearly turnout is around 300,000pcs
- **Reliable Endorsement:** 5000+ Professional athletes or coaches proved

(Wireless / Rechargeable)

Home Care

(Economy , Wide Application)

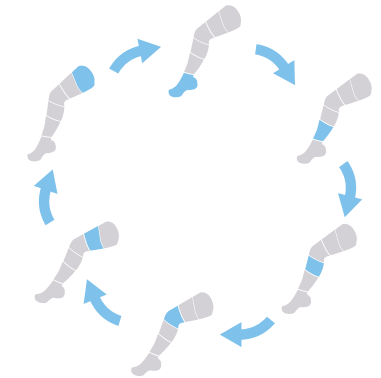

In order to meet different applications, KONBEST have developed series special recovery boots according to different clients' s specific request. We divide our compression boots into professional models , sports portable models , home health care models.

Different Modes for Different Applications

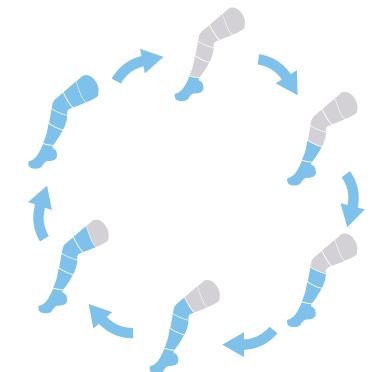

Warm Up

This mode operates like a flow, exerting pressure in a specific area and is therefore ideal for muscle relaxation. The muscles are gradually compressed from the feet to the chest. The use of this mode before sport should be short so as not to deprive your legs of the muscle tone they need for the exercise.

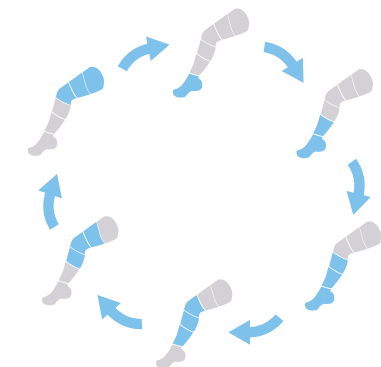

Deep Recovery

This mode helps you to get rid of lactic acid after an intensive workout by applying continuous and progressive pressure on your upper legs for fast recovery. Recovery is most efficient at high pressure.

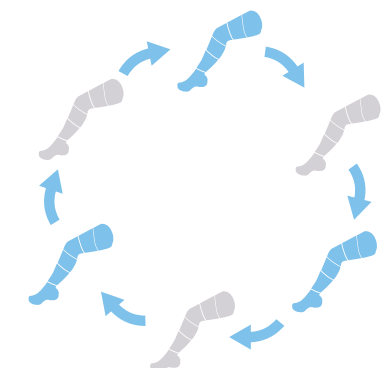

Rapid Recovery

Multiple chambers remain simultaneously inflated at all times, thereby preventing reflux. Additionally, this mode promotes lactate breakdown. It is ideal for fast yet intensive recovery sessions, as your entire leg is not constantly under pressure.

All-chamber Massage

This mode is designed for short, intensive training sessions. All chambers are inflated simultaneously, maximizing the number of possible compression phases within a given time.

Professional Recovery

These models specially designed for those professional sports clubs , athletes , coaches or physiotherapists . Equipped with larger capacity 5200mAh Li battery and high power pump. Featured with colored LCD screen , fast air inflation , pressure upto 260mmHg. To be the highest level , to be the best performance for recovery .

Common Features

- + Large screen and digital display.
- + Powerful and dynamic air pressure massage.
- + Longest treating time reach 90 minutes.
- + Six Optional modes for most comforts.
- + High Power DC Pump with Brushless Motor
- + Free time setting.
- + Computer program automaticcally control.
- + Pressure from 30 to 260 mmHg
- + Large volume built-in lithium battery.
- + Very precise parameters regulation
- + Possibility of changing treatment parameters during operation
- + Skip care and intensive care function could be chosen separately
- + Treatment effect proved by professional athletes and physiotherapists
- + Patent-Pending OptiFlow Technology

Sports Portable

In order to meet those sports lovers or amateur athletes after workouts, KONBEST have developed series of smart, portable, wireless compression recovery boots. These models featured with comfortable air compression cycling sessions, equipped with bigger capacity Li battery 3200mAh for long time use outdoors. Really best choice for those sports lovers. Not only could save time, also could get faster recovery.

Common Features

- + Individual Settings for Each Leg: Motion Space foot massager fully integrated pump - can independently control each leg and set different pressures for each leg.
- + Patented Large Chambers Overlapping Design. Fully wrapped, covering from feet, calves, knee and thigh for deep relaxation.
- + Longest treating time reach 180 mins.
- + Cordless Design
- + Main Unit Detachable
- + Built-in 3200mAh Li Battery
- + Time setting
- + Self-developed high-flow pump: featuring fast inflation speed and low noise levels (less than 45db).
- + Intelligent pressure control technology
- + Portable power for home, office, or travel-therapy anywhere.
- + Button Design. Easy Operation, Especially for elder people.

Home Care

Portable, rechargeable design make home care so easy. You could use anytime, anywhere. Not only could be used at home after workouts , also could be taken while traveling or outdoors sports. So it is really an effective , economic way to help relieve fatigue and relax yourself.

Optional Accessorise (Extra Cost)

Arm,shoulder and cuffs
4/6/8 chamber

Available variants:

- Right arm,shoulder and chest cuff
- Left arm,shoulder and chest cuff
- Double cuff for arms, shoulders and chest

Also available:

- 2 x Extension zippers for double cuff for arms, shoulders and chest

Hips
4/6/8 chamber

Available variants:

- Short pants

Also available:

- 2 x Extension zippers for short pants

Overlapping pants
6/8 chamber

Available variants:

- Full pants

Also available:

- 2 x Extension zippers for full pants

Waist cuff
4/6/8 chamber

Available variants:

- Waist cuff

Cold pad

Function Introduction :

- It reduces skin temperature through the physical properties of the gel, thereby relieving muscle soreness and swelling. When used in conjunction with air compression therapy, you can easily enjoy cold therapy and compression massage at the same time.

Vest cuff
8 chamber

Available variants:

- 8-chamber vest cuff, one size fits all :78*72CM

Also available:

- No extension zipper

8-chamber vest with arm
6/8 chamber

Available variants:

- Vest with arm, one size fits all : 102*73CM

Also available:

- No extension zipper

Backpack
4/6/8 chamber

- Material: Ballistic nylon (cut-proof & water-proof) + ventilated back panel & shoulder straps
- Structure: Independent compartment with Velcro fastening straps for main unit; Side mesh for water bottle and umbrella holder;
- Use Case: Outdoor sports / Fitness venues

Carry bag
4 chamber
6/8 Chambers standard configuration

- Material: 1680D oxford fabric + hard handles & shell
- Use Case: Mobile therapists / Sample deliveries

Nylon bag
4 chamber

- Material: 600D abrasion-resistant nylon + water-repellent coating
- Use Case: Clinic storage / Home organization

Customization service

We can provide you with logo Custom-ized services on both products and Package. Additionally, multiple models and new products are under development, which will offer you more choices. For more customization information, please contact us, and we will be happy to assist you whole heartedly.

Product List

Ice Bath Tub

Cold water therapy helps lower core and skin temperature while increasing heat storage capacity and reducing tissue inflammation during training. When exposed to cold water, blood vessels constrict rapidly—a natural protective response. Upon exiting, they dilate, enhancing circulation. This alternating process strengthens cardiovascular health and helps prevent conditions like hypertension and arteriosclerosis.

39 rolling balls /25 mm in diameter	

RM03

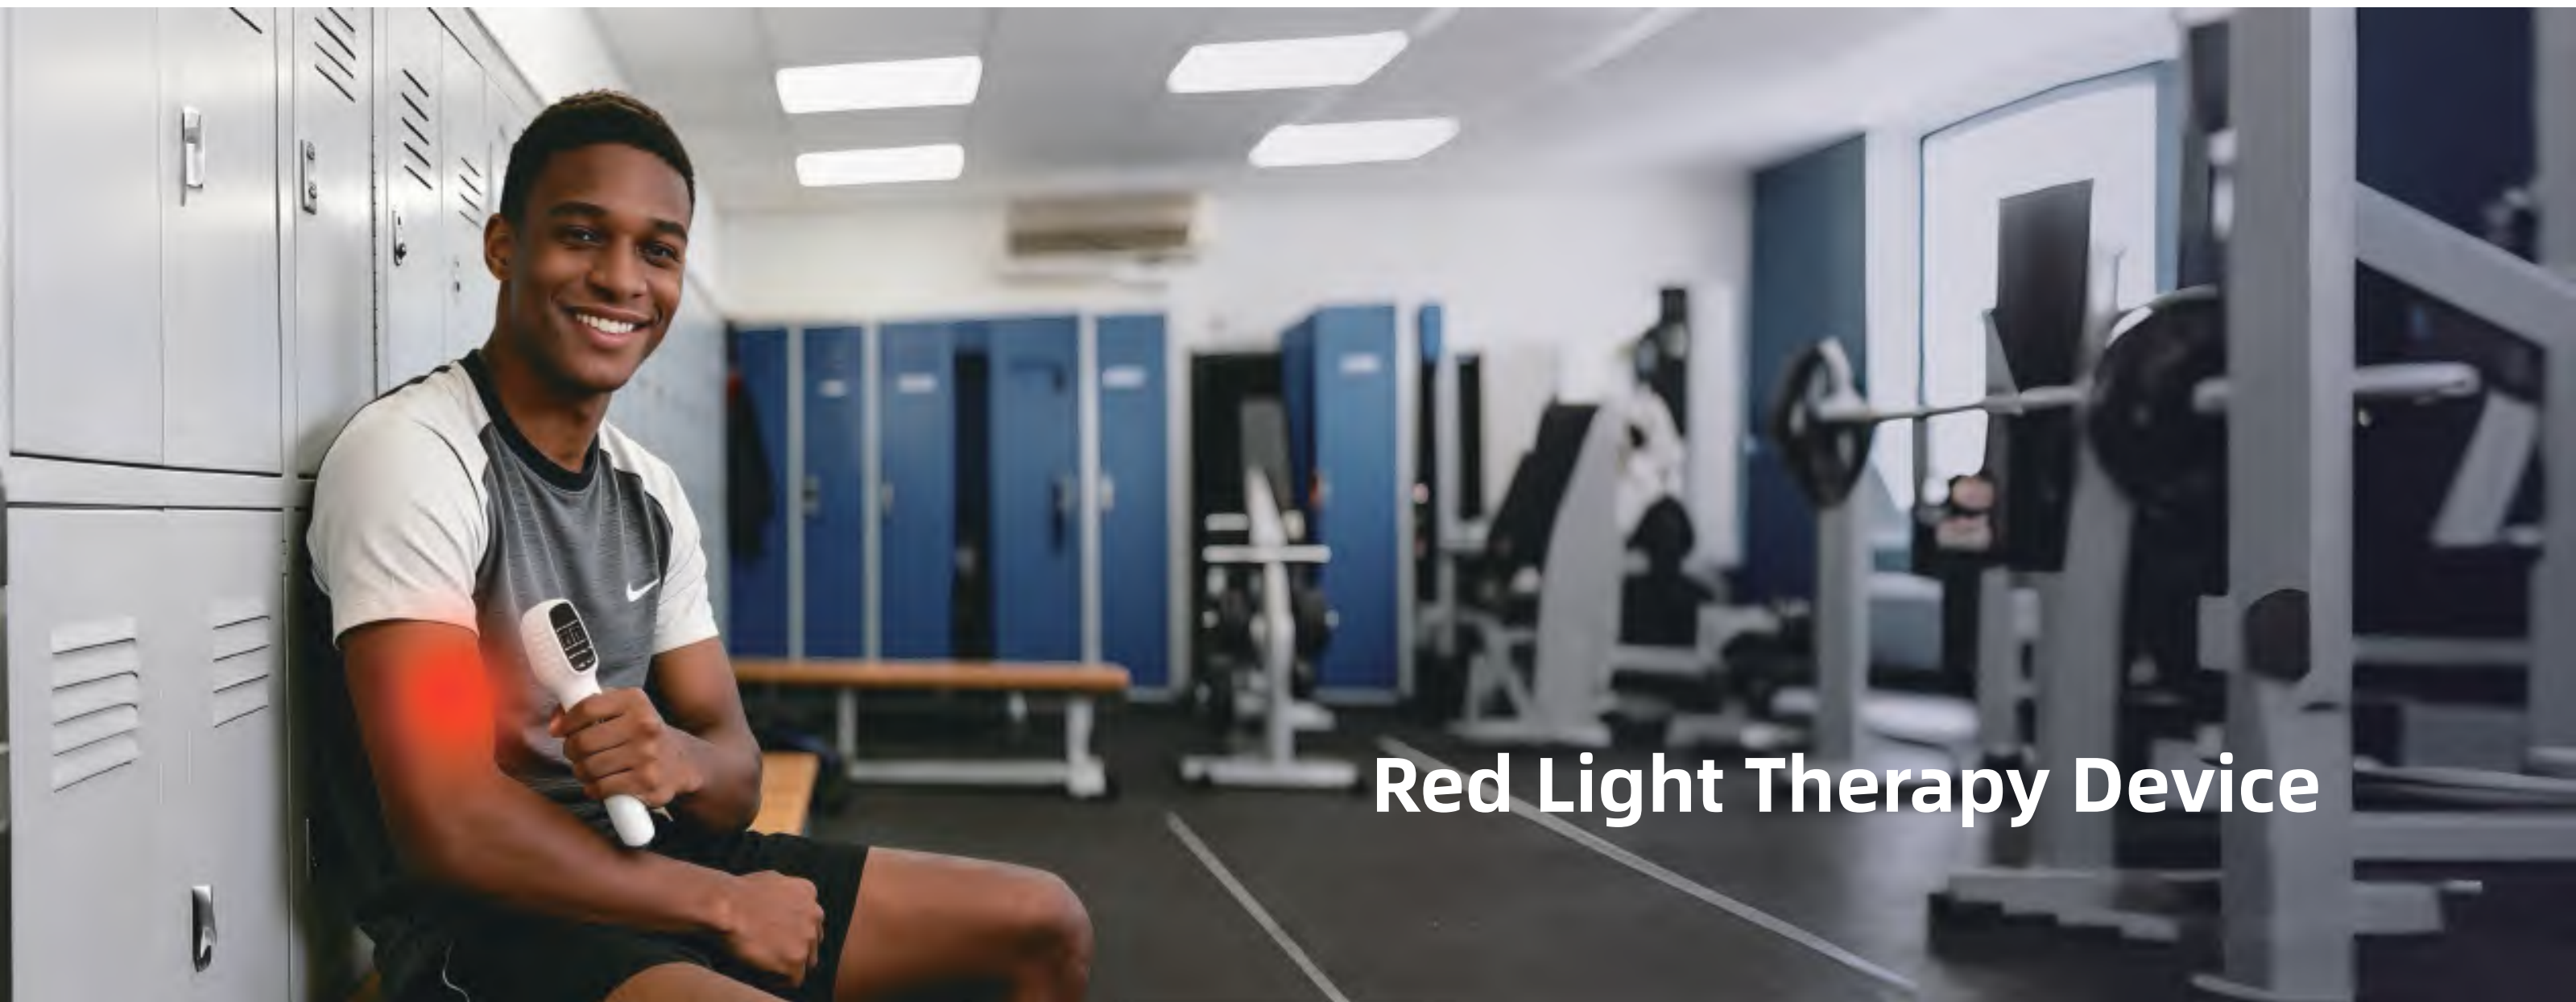

Maximum power	Power supply
40W	12V 1A
Weight	Vibration frequency
1200g	40-320Hz
Number/size of rolling balls	
39 rolling balls /25 mm in diameter	

RM04

Input	Battery
5V	4000mAh 7.4V
Material	Weight
ABS	≈ 2.13kg
Product Size	Color box size
49.5*14.5*7.5	54*17.5*11cm

Red Light Therapy Device

RL101

PRODUCT DATA

Rated Voltage	5.0V 1000mA (max)
Charging port	Type -C
Laser Wavelength	650nm 808nm
Battery	2500mAh
Time Setting	12 Timer Setting
Mode	4 Power Mode
Weight	150g
Diameter	24*20*7cm
Material	ABS + PC

RL105

PRODUCT DATA

Rated Voltage	3.7V
Charging port	Special Charger
Laser Wavelength	650nm 808nm
Battery	2500mAh
Time Setting	12 Timer Setting
Mode	3 Power Mode
Weight	249g
Diameter	17*5cm
Material	Stainless Steel

RL201

PRODUCT DATA

Battery Voltage	DC 3.7V
Charging port	Type -C
Laser Wavelength	660nm 850nm
Battery	1200 mAh
Time Setting	5-20 minutes
Mode	4 Power Mode
Weight	100g
Diameter	4.7*12*31.5cm
Material	Stainless Steel

CL808Pro

PRODUCT DATA

Cold & Heated +Red Light	
Power	30W
Charging port	Type -C
Rapid Cooling Mode	4 levels 3~45°C
Rapid Heating Mode	660nm,850nm
Battery Life	7.4V , 5000mAh
Input	5V 2A
Weight	1 Kg
Diameter	1180*180mm

PRODUCT DATA

Model RL202

Battery Voltage	DC5V
Charging port	USB Type-C
Laser Wavelength	19 LED 9×660nm 10×850nm
Battery Capacity	450mAh
Working Modes	5 modes
Main Unit Dimensions	45 x 20.3 mm
straps	236 x 23mm
Weight	28g
Main Functions	Red-Light Therapy
Material	ABS + Silicone + Fabric Strap

PRODUCT DATA

Model RL203

Battery Voltage	DC5V
Charging port	USB Type-C
Laser Wavelength	625nm 7 LED
Battery Capacity	180mAh
Working Modes	8 Modes+30 Intensity level+Red-light Heating
Main Unit Dimensions	53×55×20mm
Wrist Wrap	350×80mm
Weight	80g
Main Functions	EMS + Tens
Material	High-quality skin-friendly fabric

PRODUCT DATA

Model RL204

Battery Voltage	DC5V (1A)
Charging port	USB Type-C
Laser Wavelength	9 LED 7×660nm 2×880nm
Battery Capacity	400mAh
Working Modes	8 modes+30 intensity levels
Main Unit Dimensions	50×51×15mm
Pad Dimensions	160×65×2mm
Weight	120g
Main Functions	EMS + Tens
Material	High-quality skin-friendly fabric

PRODUCT DATA

Model RL205

Battery Voltage	DC5V (1A)
Charging port	USB Type-C
Laser Wavelength	9 LED 7×660nm 2×880nm
Battery Capacity	400mAh
Working Modes	8 modes+30 intensity levels
Main Unit Dimensions	50×51×15 mm
Bracelet	240×70mm
Weight	70g
Main Functions	EMS + Tens
Material	High-quality skin-friendly fabric

Single-Zone Far-Infrared Sauna Blanket

This sauna blanket uses low EMF carbon fiber heating wires to generate penetrating far-infrared warmth up to 80°C. It naturally relieves muscle and joint pain, aids detoxification, and supports cardiovascular health. With explosion-proof, leak-proof, and overheat protection, it ensures safe use in clinics or homes. Ideal for sports rehabilitation, it promotes deep relaxation, improves sleep, and speeds recovery from fatigue and injuries.

RL303

PRODUCT DATA

Core Positioning	1 - zone zipper full - body sauna blanket
Main Functions	Far - infrared heating, sweating
Heating Zones	1 zone
Key Technologies	Low - radiation carbon fiber heating wire
Temperature Range	25°C - 80°C
Timing Range	5 - 60 minutes
Rated Power	600W
Product Dimensions	180 * 180 cm
Gross Weight/Packaging	8.5 KG / single - piece package

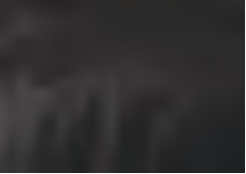

Waterproof

Explosionproof socket

Folded

High-grade PU

Customized canvas bags and color boxes

Red Light Therapy Blanket

Featuring 2240 triple-chip LEDs (660nm:850nm=1:2) at 130mW/cm², this full-body blanket delivers deep tissue penetration. Three modes—constant, 10Hz (pain relief), and 40Hz (anti-inflammation)—plus 5 intensity levels, rapidly ease muscle and joint aches. Made of waterproof PU+TPU, it operates on safe DC24V. Perfect for athletes, it enhances muscle recovery, reduces inflammation, and maximizes rehabilitation efficiency.

RL302

PRODUCT DATA

Core Positioning	Red light therapy sauna blanket
Main Functions	Red light irradiation, far - infrared heating
Heating Zones	No clear zoning (whole - body unified)
Key Technologies	2240pcs LED photon light beads
Temperature Range	Usually combined with red light heating
Timing Range	10 - 60 minutes
Rated Power	200W
Product Dimensions	180 * 180 cm
Gross Weight/Packaging	8.1 KG / flat carton

Red Light Infrared Sauna Dome

This sauna blanket uses low EMF carbon fiber heating wires to generate penetrating far-infrared warmth up to 80°C. It naturally relieves muscle and joint pain, aids detoxification, and supports cardiovascular health. With explosion-proof, leak-proof, and overheat protection, it ensures safe use in clinics or homes. Ideal for sports rehabilitation, it promotes deep relaxation, improves sleep, and speeds recovery from fatigue and injuries.

RL301

PRODUCT DATA

Core Positioning	3 - zone independent control comprehensive therapy pod
Main Functions	Red light + terahertz + PEMF pulse + negative ions + far - infrared
Heating Zones	3 zones (upper body/waist/lower body independent control)
Key Technologies	PEMF pulse coils, photon energy stones, negative ion balls
Temperature Range	Dome: 25°C - 90°C; Mat: 25°C-80°C
Timing Range	5 - 60 minutes
Rated Power	1200W
Product Dimensions	180 * 80 * 45 cm
Gross Weight/Packaging	35 KG

Pulse Magnetic Therapy Instrument

PAIN THERAPY SPECIALIZED EQUIPMENT

The combination of specific frequency, intensity, pulse width, and other pulse shapes acts on the pain site, which has the functions of soothing smooth muscle, expanding peripheral blood vessels, reducing blood viscosity, activating enzyme activity, affecting blood vessel and blood flow status, as well as tissue and organ metabolism and function; Accelerate blood reflux speed, promote red blood cell proliferation and increase vitality.

PMD1001

Vertical ,Integrated Design

PRODUCT DATA

Handle configuration	Single handle
Rated power	1000W
Screen size	10.4 inches
Magnetic field intensity	2-3T
Frequency	1-50Hz
Security level	IBF
Size	54*43*97(cm)
Instrument weight	47KG
Electricity demand	220V 50/60Hz 800W

PMD1002

Desktop, Separate Design

PRODUCT DATA

Handle configuration	Single handle
Rated power	1000W
Screen size	10.4 inches
Magnetic field intensity	2-3T
Frequency	1-50Hz
Security level	IBF
Size	42*42*30(cm)
Instrument weight	47KG
Electricity demand	220V 50/60Hz 800W
